1982
Mooney M20J
N1158J s/n 24-1267

This 1982 Mooney M20J offers the perfect combination of performance, efficiency, and style. With only 2,279 hours on the airframe, 831 hours on the engine since rebuild, and just 133 hours on the propeller since new, this aircraft is a strong performer with plenty of life ahead.

The exterior was completely repainted in 2018 in a crisp white finish accented by elegant blue and red striping, giving the aircraft a fresh and modern look. The interior was also fully redone in 2018 and features beige leather seating with refined red piping and quilted red side panels, creating a stylish and comfortable cabin environment.

Avionics are well equipped for both safety and convenience. The panel features the reliable King six-pack with a KFC200 autopilot, a Garmin GNS430W, and a newly installed second NAV/COM radio. An AirTraffic Collision Avoidance System (ADSB + Flarm) is integrated with the GNS430W, complemented by a AV20 backup horizon. Engine monitoring is fully modernized with a JPI930 engine monitor, installed just last year.

N1158J is a truly turnkey aircraft—fast, efficient, and ready to fly. With its strong engine, fresh prop, and updated paint and interior, it stands out as one of the most attractive M20Js available on the market today.

Interior

The cabin was completely refurbished in 2018 and features elegant beige leather seats with red piping, complemented by matching quilted red side paneling.

The combination of colors gives the interior a modern yet timeless look, while offering both comfort and style for passengers. The fresh materials and excellent condition reflect the care and attention invested in this aircraft.

Exterior

This aircraft features a classic white paint scheme accented with elegant blue and red striping, giving it a timeless and dynamic look. The exterior was professionally repainted in 2018, ensuring a fresh, modern appearance that has been very well maintained.
