Cessna 182T Skylane

D-EUML s/n 18281478

Get ready to elevate your hangar! We are thrilled to announce this exceptionally maintained 2004 Cessna 182T Skylane. This is a rare opportunity to own a modern, mission-ready machine that perfectly balances classic ruggedness with sophisticated glass-cockpit technology.

This Skylane features approximately 2,912 airframe hours and is powered by an engine with only **300 hours since its November 2023 overhaul**, allowing you to fly with absolute peace of mind.

The cockpit is headlined by a fully integrated Garmin G1000 avionics suite, complemented by a Garmin GTX33 Transponder, Bendix King KN63 DME, and the KAP 140 Autopilot. For those who prioritize safety and situational awareness, the aircraft comes equipped with a TAS 600 traffic system and a WX500 stormscope.

Fully IFR certified, IFR equipped, and maintained to the highest standards, this aircraft is ready to change owners and head straight to work. With its fresh engine and high-spec panel, it offers the performance and reliability of a much newer aircraft without the wait.

Interior

Step into a cockpit defined by its clean lines and inviting aesthetic. This 182T Skylane features a pristine Creme leather interior that reflects a high standard of care. The light-toned upholstery makes the cabin feel incredibly open and airy, seamlessly blending the interior luxury with the wide-reaching visibility that makes the 182T a favorite for cross-country touring.

Exterior

Presenting an impressive ramp presence, this 182T Skylane boasts a crisp white, and blue paint scheme with refined black and bronze detailing. The sweeping accents follow the aerodynamic lines of the fuselage, leading the eye to the high-performance polished McCauley propeller. With its clear glass and matching wheel fairings, this aircraft offers a cohesive and premium appearance that stands out on any flight line.
